

Music Video Workshop

Summer 2012 Application

August 6th – August 10th

9am – 3pm, Monday – Friday

Tuition: \$275*

Since its inception, the music video has functioned as cinema's experimental testing ground, debuting cutting edge techniques and effects before they were used in major Hollywood productions. Some of Hollywood's greatest directors honed their craft in this short format. In this exciting new workshop, students will collaborate with a local Charlottesville artist or band and put their knowledge to work to produce a music video by the end of the workshop.
